**CORPORATE SOCIAL  
ENTREPRENEURSHIP  
(CSE) CURRICULUM**

Project News | Partnership | CSE and more

**THREE DIMENSIONS**

**TO DEVELOP**

A favourable climate for social economy stakeholders to be aware of the need to identify actions to increase the visibility of the necessity for Corporate Social Entrepreneurship and the development of a more socially aware entrepreneurial society in regions.

**TO CO-CREATE**

An innovative, multidisciplinary European Corporate Social Entrepreneurship Curriculum (ECSEC) to be incorporated into HEI education programmes across all disciplines.

**TO ESTABLISH**

A sustainable environment that facilitates the exchange, flow and co-creation of knowledge between HEIs and enterprises: resulting in the creation of new business opportunities dealing with social change both within and external to organisations.

**THE FUTURE  
IS SOCIAL**

**HAPPY HOLIDAYS FROM EMBRACE!**

Happy New Year to all our readers. We hope that this is a safe and COVID-free 2022 for all.

At EMBRACE, despite the ongoing pandemic and difficulty to arrange face-to-face meetings, the partnership has been working hard to achieve our goals and promote Corporate Social Entrepreneurship (CSE). We now take this opportunity to share with you our series of very interesting results to date.

During the first stage of the project development, we focused on examining the current state of the art of Corporate Social Entrepreneurship (CSE), having scoped out the climate for social economy, addressing with different stakeholders the need to identify actions to increase the visibility for CSE and the development of a more socially aware entrepreneurial society in European regions. To do so, we have evaluated the current landscape considering the social trends and the volatile changes made by digital disruption. As a result, we published a [Review of Corporate Social Entrepreneurship Programmes in HEIs](#) and a [Comparative Report and Handbook for Corporate Social Entrepreneurs](#).

We have also established different levels and modules for students and adjusted the educational and professional needs at each level to ensure quality training aligned with the objectives of the project. To do so, the partnership has co-designed and co-developed a **Corporate Social Entrepreneurship Curriculum (ECSEC)** to be incorporated into HEI education programmes across all disciplines. During the co-design and co-elaboration of the curriculum, the consortium established four pathways - Novice, Intermediate, Professional, and Expert - to address the needs of the students and boost their competencies by enhancing social responsibility, social entrepreneurship, and socially sustainable development.

**OUR PLANS FOR 2022**

At present, we continue working to finalise a well-grounded curriculum that will contain the different levels and modules. As Robert Storm said "It's hard to make predictions - especially about the future."- but the EMBRACE project is striving to make predictions and therefore, the partnership is working on the curriculum to prepare it for testing with experts, educators, students, and people within business and industry settings. Additional to this, there is another testing session planned to analyse the EMBRACEEduLab to obtain as many insights as possible, in order to make our platform user-friendly and accessible to all users.

If you are interested in participating in the testing and evaluation of the EMBRACE curriculum and EMBRACEEduLab please send us an email to [info@csembrace.eu](mailto:info@csembrace.eu)

The future is social. We are committed to establishing an effective program that will inspire and embrace the opportunities for responsible leadership and social impact. To do so, we need entrepreneurs and therefore, change-makers and creative thinkers, committed with the most significant issues.

Another year finishes with a dynamic feeling of uncertainty and ambiguity.

Another year of changes.

Another year that allows us to reflect and think on what is coming.

But also,

Another year arrives with the possibility of creating more social impact and overcoming difficulties.

Another year that Corporate Social Entrepreneurs will make the best of it.

Another year that EMBRACE will work together for the future.

**THE FUTURE IS SOCIAL.**
